

Our Support Coordinators will:

- Listen to you and understand your support needs
- Communicate with you in a way that you request and understand
- Help you to navigate the NDIS so that your plan reflects what you need
- Help you explore and set goals
- Work with you to build your confidence to find and engage service providers who can help you meet your goals
- Connect you with services to help you achieve your goals
- Help you if something goes wrong
- Monitor and ensure that your supports are meeting your needs
- Review your plans when they're due

Vision

Choose the life you love

Mission

To create opportunities for the life you choose

About Us

In 1992, a group of people with disabilities joined together with a vision for an organisation that would provide the daily supports they wanted and could choose from, so that they could live a productive and purposeful life.

121 Care is an accredited not-for-profit and in the years since, we have embraced that vision and turned it into a range of services for people living with disabilities across South-East Queensland including:

- Personal and overnight support
- In-home assistance including meal preparation
- Transportation
- Holiday support
- Supported independent living
- Supported accommodation
- Community participation
- Support coordination

Support Coordination

Our support coordinators will work with you to achieve your goals as well as build and maintain a resilient network of formal and informal supports.

Support Coordination is funded in your NDIS plan under Capacity Building.

We provide support coordination services to NDIS participants living in supported accommodation, supported independent living facilities as well as those living at home.

*“A **DREAM** written down with a date becomes a **GOAL**. A goal broken down into steps becomes a **PLAN**. A plan backed by **ACTION** becomes **REALITY**”.*

– Greg Reid
